#### 1. HISTORY AND ORGANIZATION OF THE COMPANY

Silverwing Systems Corporation (the "Company"), a Nevada corporation, was incorporated on September 1, 1998. On June 23, 1999, the Company completed the acquisition of Advertain On-Line Canada Inc. ("Advertain Canada"), a Canadian company operating in Vancouver, British Columbia, Canada. The Company changed its name to Advertain On-Line Inc. ("Advertain") on August 19, 1999. Advertain Canada's business was the operation of a web site, "Advertain.com", whose primary purpose was to distribute entertainment advertising on the Internet.

In May 2001, the Company, being unable to continue its funding of Advertain Canada's operations, decided to abandon its interest in Advertain Canada. On June 15, 2001, the Company sold its investment in Advertain Canada back to Advertain Canada's original shareholder. On June 18, 2001, the Company changed its name from Advertain to RetinaPharma International, Inc. ("RetinaPharma") and became inactive.

In 2003, the Company became a resource exploration company. On October 31, 2003, the Company acquired 100% of the issued and outstanding common stock of Xtra-Gold Resources, Inc. ("XGRI"). XGRI was incorporated in Florida on October 24, 2003. On December 19, 2003, the Company changed its name from RetinaPharma to Xtra-Gold Resources Corp.

In 2004, the Company acquired 100% of the issued and outstanding capital stock of Canadiana Gold Resources Limited ("Canadiana") and 90% of the issued and outstanding capital stock of Goldenrae Mining Company Limited ("Goldenrae"). Both companies are incorporated in Ghana and the remaining 10% of the issued and outstanding capital stock of Goldenrae is held by the Government of Ghana.

On October 20, 2005, XGRI changed its name to Xtra Energy Corp. ("Xtra Energy").

On October 20, 2005, the Company incorporated Xtra Oil & Gas Ltd. ("XOG") in Alberta, Canada.

On December 21, 2005, Canadiana changed its name to Xtra-Gold Exploration Limited ("XG Exploration").

On January 13, 2006, Goldenrae changed its name to Xtra-Gold Mining Limited ("XG Mining").

On March 2, 2006, the Company incorporated Xtra Oil & Gas (Ghana) Limited ("XOGG") in Ghana.

#### 2. GOING CONCERN

The Company is in the exploration stage with respect to its resource properties, incurred a loss of \$129,106 for the three months ended March 31, 2010 and has accumulated a deficit during the exploration stage of \$9,416,650. This raises substantial doubt about its ability to continue as a going concern. The ability of the Company to continue as a going concern is dependent on the Company's ability to raise additional capital and implement its business plan. The financial statements do not include any adjustments that might be necessary if the Company is unable to continue as a going concern.

Management of the Company ("Management") is of the opinion that sufficient financing will be obtained from external financing and further share issuances to meet the Company's obligations. At March 31, 2010, the Company has working capital of \$1,994,325.

#### 3. SIGNIFICANT ACCOUNTING POLICIES

The accompanying unaudited financial statements have been prepared by the Company in conformity with accounting principles generally accepted in the United States of America applicable to interim financial information and with the rules and regulations of the United States Securities and Exchange Commission. Accordingly, certain information and note disclosures normally included in financial statements prepared in accordance with generally accepted accounting principles have been condensed, or omitted, pursuant to such rules and regulations. In the opinion of management the unaudited interim financial statements include all adjustments necessary for the fair presentation of the results of the interim periods presented. All adjustments are of a normal recurring nature, except as otherwise noted below. These financial statements should be read in conjunction with the Company's audited consolidated financial statements and notes thereto for the year ended December 31, 2009, included in the Company's Form 10-K, filed with the Securities and Exchange Commission. The results of operations for the interim periods are not necessarily indicative of the results of operations for any other interim period or for a full fiscal year.

# **Recent accounting pronouncements**

During the third quarter of 2009, the Company adopted the FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles in accordance with FASB ASC Topic 105,"Generally Accepted Accounting Principles"(the Codification). The Codification has become the source of authoritative U.S. generally accepted accounting principles (GAAP) recognized by the FASB to be applied by nongovernmental entities. Rules and interpretive releases of the Securities and Exchange Commission (SEC) under authority of federal securities laws are also sources of authoritative GAAP for SEC registrants. Effective with the Company's adoption on July 1, 2009, the Codification has superseded all prior non-SEC accounting and reporting standards. All other non-grandfathered non-SEC accounting literature not included in the Codification has become non-authoritative. As the adoption of the Codification only affected how specific references to GAAP literature have been disclosed in the notes to our condensed consolidated financial statements, it did not result in any impact on the Company's results of operations, financial condition, or cash flows.

In December 2007, the FASB issued authoritative guidance related to non-controlling interests in consolidated financial statements, which was an amendment of ARB No. 51. This guidance is set forth in ASC 810, *Consolidation*. ASC 810 establishes accounting and reporting standards for the non-controlling interest in a subsidiary and for the deconsolidation of a subsidiary. This accounting standard is effective for fiscal years beginning on or after December 15, 2008, which for the Company was the fiscal year beginning January 1, 2009. The Company adopted ASC 810 at January 1, 2009, which has resulted in \$76,629 allocated to the non-controlling interest for the year ended December 31, 2009.

In October 2009, the FASB issued ASU 2009-13, *Revenue Recognition (Topic 605), Multiple-Deliverable Revenue Arrangements* amending ASC 605. ASU 2009-13 requires entities to allocate revenue in an arrangement using estimated selling prices of the delivered goods and services based on a selling price hierarchy. ASU 2009-13 eliminates the residual method of revenue allocation and requires revenue to be allocated using the relative selling price method. ASU 2009-13 is effective prospectively for revenue arrangements entered into or materially modified in fiscal years beginning on or after June 15, 2010. The Company is currently evaluating the impact of ASU 2009-13, but does not expect its adoption to have a material impact on the Company's financial position or results of operations.

#### 3. SIGNIFICANT ACCOUNTING POLICIES (cont'd...)

# **Recent accounting pronouncements** (cont'd...)

In January 2010, the FASB issued ASU 2010-06, Fair Value Measurements and Disclosures (Topic 820), Improving Disclosures about Fair Value Measurements, amending ASC 820. ASU 2010-06 requires entities to provide new disclosures and clarify existing disclosures relating to fair value measurements. The new disclosures and clarifications of existing disclosures are effective for interim and annual reporting periods beginning after December 15, 2009, except for the disclosures about purchases, sales, issuances, and settlements in Level 3 fair value measurements, which are effective for fiscal years beginning after December 15, 2010 and for interim periods within those fiscal years. The Company has adopted ASU 2010-06, which did not have a material impact on the Company's financial position or results of operations.

In February 2010, the FASB issued ASU 2010-09, *Subsequent Events (Topic 855)*, amending ASC 855. ASU 2010-09 removes the requirement for an SEC filer to disclose a date relating to its subsequent events in both issued and revised financial statements. ASU 2010-09 also eliminates potential conflicts with the SEC's literature Most of ASU 2010-09 is effective upon issuance of the update. The Company adopted ASU 2010-09 in February 2010, and its adoption did not have a material impact on the Company's financial reporting and disclosures.

# Option agreement on Edum Banso Project

In October, 2005, XG Exploration entered into an option agreement (the "Option Agreement") with Adom Mining Limited ("Adom") to acquire 100% of Adom's right, title and interest in and to a prospecting license on the Edum Banso concession (the "Edum Banso Project") located in Ghana. Adom further granted XG Exploration the right to explore, develop, mine and sell mineral products from this concession. The renewal date was July 14, 2009 and the Company has been granted an extension by the Minerals Commission to December 1, 2010.

The consideration paid was \$15,000 with additional payments of \$5,000 to be paid on the anniversary date of the Option Agreement in each year during the term. Upon the commencement of gold production, an additional \$200,000 is to be paid, unless proven and probable reserves are less than 2,000,000 ounces, in which case the payment shall be reduced to \$100,000.

Upon successful transfer of title from Adom to XG Exploration, a production royalty (the "Royalty") of 2% of the net smelter returns shall be paid to Adom; provided, however that in the event that less than 2,000,000 ounces of proven and probable reserves are discovered, then the Royalty shall be 1%. The Royalty can be purchased by XG Exploration for \$2,000,000; which will be reduced to \$1,000,000 if proven and probable reserves are less than 2,000,000 ounces.
