(December 2022 - July 2023)**

Cautionary Note: Readers are cautioned that the JK Zone target lies in the Forest Reserve, outside the Apapam concession, and the Company as presently no rights to explore or mine this mineralization zone. An application for a Prospecting Permit to conduct mineral exploration activities within the fringes of the Atewa Forest Reserve has been submitted to the Minerals Commission of Ghana by the Company. Although Forest Reserve prospecting permits are routinely granted by the Ghana Government, there is no assurance that the Company will ever be granted a permit to explore or mine this mineralization zone.
